Education

Indira Gandhi Delhi Technical University for Women, Delhi

2021 - 2025

Bachelor of Technology - Electronics and Communication Engineering with Artificial Intelligence

Technical Skills

- **Languages:** Python, C++
- **Frontend:** React, TailwindCSS, HTML, CSS, Bootstrap
- **Backend:** Node.js, Express.js, Django
- **Developer Tools:** Google Colab, VS Code, GitHub
- **Strong fundamentals:** DBMS, OOPS, Machine Learning

Work Experience

Defence Research and Development Organisation

June 2024 – July 2024

Research Intern

New Delhi

- **Enhanced Security Against SQL Injection:** Implemented unique value and signature-based authentication techniques, reducing unauthorized access attempts by **80%** and ensuring the authenticity of database queries.
- **Real-time Malicious Code Detection:** Implemented real-time malicious code detection, analyzing and identifying malicious SQL code to prevent potential SQL injection attacks, thereby reducing system vulnerabilities by **70%**.
- **Comprehensive Technology Stack:** Developed a responsive and interactive user interface using **HTML, CSS, JavaScript, Bootstrap, and jQuery**. Powered the backend with **PHP and MySQL**, ensuring robust server-side operations and secure data management.

Projects

Code Deck [Code](#)

Aug 2025 - Sept 2025

Tech Stack: React.js, JavaScript, HTML, CSS

- **Modular UI Development:** Designed a scalable React application using reusable components, reducing code duplication by **40%**.
- **Interactive Folder System:** Implemented folder and playground creation and editing via modal-driven workflows, improving UI interaction efficiency by **35%**.
- **State Management:** Handled dynamic UI state updates for real-time content changes, resulting in smoother user experience and improved responsiveness.

Train Booking [Code](#)

June 2024 - July 2024

Tech Stack: Node.js Express, MongoDB, SendGrid, JWT, OAuth, HTML, CSS, JavaScript, React

- **User Booking:** Enabled users to book train tickets, choose their seats, and **receive email confirmations**, resulting in a **50% increase in booking efficiency**.
- **Admin Controls:** Provided admins with the ability to **modify train schedules, update fares, and cancel tickets**, improving operational flexibility by **40%**.

Cropseer [Code](#)

June 2023 - July 2023

Tech Stack: React.js, Python, Flask

- **Model Prediction:** Processed input data with a **machine learning model** to predict the most suitable crop, improving prediction accuracy by **75%**.
- **Display Output:** Sent the predicted crop back to the frontend and displayed it to the user, **enhancing user decision-making by 50% change**.

Achievements and Certifications

- **Brain Tumor Detection Research:** Compared deep learning methods using YOLO-NAS for MRI-based tumor detection, achieving **99.7% accuracy** ([Link](#)).
- **Solved 500+** DSA problems from Leetcode, GFG, Coding Ninja, CodeForces, thus building problem-solving skills.
- **Event Management Coordinator** in the Annual Technical Fest "INERVE".
- **Mentored students** who are in their secondary school to make them aware of **STEM opportunities**.
- **Certifications & Training:** Cybersecurity ([Link](#)), Data Structures & Algorithms ([Link](#)).
